

## **Inspire Global Hope Large Cap ETF**

BLES

### **a series of Northern Lights Fund Trust IV**

Notice dated March 15, 2017

#### **Important Notice Regarding Change in Investment Policy**

---

The Inspire Global Hope Large Cap ETF (the "ETF") seeks to replicate investment results that generally correspond, before fees and expenses, to the performance of the Inspire Global Hope Large Cap Index (the "Index"), and, therefore, invests in the stocks in the Index. In addition, because the ETF uses the term "large cap" in its name, the ETF adopted a policy to invest, under normal circumstances, at least 80% of its assets in large cap companies. As presently constituted, the capitalization of several of the foreign companies in the Index, after converting to US dollars, is below the prospectus definition of large cap (capitalization of \$10 billion or more). Because the ETF seeks to track the Index, the ETF is currently unable to achieve the ETF's policy of investing at least 80% of its assets in large cap companies.

Therefore, effective March 24, 2017, the name of the ETF is changed to Inspire Global Hope ETF. Consequently, all references to Inspire Global Hope Large Cap ETF in the Fund's Prospectus and Statement of Additional Information are deleted and replaced with Inspire Global Hope ETF. In addition, this document serves as notice to shareholders that effective May 15, 2017, the ETF's policy to invest at least 80% in large cap companies will be eliminated. During the notice period, the ETF will continue to seek to meet its objective of tracking the Index, which means it is likely the ETF will not achieve the 80% large cap investment threshold. The ETF intends to continue to invest primarily in large cap companies, consistent with the Index composition.
