INSPIRING COMPANY HIGHLIGHT: J.M. Smucker (ticker: SJM)

Smucker's brand name represents wholesome, midwestern values and embodies honesty, fairness and ethics. A sprawling global supply chain like Smucker's made of farmers growing fruit, vegetables, coffee, grains and other raw ingredients can be particularly susceptible to human trafficking issues. But Smucker's excersizes exemplary diligence to ensure that their supply chain is free of human rights violations.

In particular, Smucker's requires direct suppliers to contractually agree not to employ children, prison labor, indentured labor, or bonded labor or to participate in human trafficking. In addition, using internal resources, Smucker's performs Quality Assurance audits on select suppliers, during which auditing personnel look for any evidence of human trafficking and slavery. **That is what we call inspiring transformation!**

Inspire Corporate Bond Impact ETF

Fact Sheet as of March 31, 2019

¹SEC Yield calculations are based on most recent Ex-Date. SEC Yield may include income, dividends, return of capital, or other distributions that are not considered short-term or long-term capital gains. Return of capital is considered a return of the investment principal and is not derived from net profits. Yield performance shown reflects fee waivers and/or expense reimbursements by the investment advisor to the fund resulting in a net expense ratio. Performance would have been lower without such waivers.

²The Fund's adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least March 31, 2020, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement will not exceed 0.61% of the Fund subject to possible recoupment from the Fund.

Important Risk Information:

Fixed income securities will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. While the shares of ETFs are tradable on secondary markets, they may not readily trade in all market conditions and may trade at significant discounts in periods of market stress. ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns. There is no guarantee that the Fund will achieve its objective. Securities in the Index or in the Fund's portfolio may underperform in comparison to the general securities markets or other asset classes. **Before investing, consider the funds' investment objectives, risks, charges and expenses.
